

The RJ Mitchell Primary School

Equality Statement

At this school there is equality in access to the curriculum for every child. No child will be prejudiced against regardless of nationality, race, gender, religion or sexual orientation. We have reviewed each policy and can confirm that we believe that no individual or group is disadvantaged by the processes outlined. We do acknowledge that our policies are in English and should a family whose main language is other than English, become part of safeguarding processes we will make sure their language needs are conveyed to social care and hold social care to account in providing translation and support services as needed.
