

HOME/SCHOOL READING

As a school, we attach great value to the importance of reading. We operate a structured reading system involving the child/school/home; through this all parents have the opportunity to play an active part in their child's reading development.

HOMEWORK POLICY

We set regular homework in school. This takes the form of reading, spellings, tables and individual weekly homework that reflects the learning that has taken place that week. From time to time, there may also be project work given for children to complete over a number of weeks. We ask parents to play a supportive role in homework in order to enhance their child's education.
